Banner object naming standards

Updated: August 27, 2020

Banner objects follow a specific naming convention to ensure consistency and proper functioning across all Banner applications. A Banner object name has a short name, consisting of a seven or eight character mnemonic and a long name, which is the full name of the object.

For example, Basic Course Information page (SCACRSE).

- Short name = SCACRSE
- Long name = Basic Course Information

The short name (mnemonic) is comprised of the following components:

- System ID (one or two characters)
- Module ID (one character)
- Object type code (one character)
- Unique ID (four characters)

The following table shows a few examples of Banner short name menonics.

Short Name (mnemonic)	System ID	Module ID	Object type code	Unique ID
SCASRSE	S = Student	C = Catalog	A = Application	CRSE = Basic Course Information
GEAATID	G = General	E = Event Management	A = Application	ATID = Event Registration
STVRSTS	S = Student	T = Validation page/table	V = Validation page/table	RSTS = Course Registration Status Code Validation

System IDs

Updated: June 28, 2023

The first component of a Banner object name is a one- or two-character code that identifies the primary system associated with the page, report, job, or table. In most cases, the system ID is the same as the system indicator on the GTVSYSI table.

Some examples of system IDs are as follows:

System ID	Banner System
A	Advancement
E	Document Management
F	Finance
G	General
K	Reserved for localizations for regional support
N	Position Control
P	Human Resources/Payroll/Personnel
R	Financial Aid
S	Student
T	Accounts Receivable
XP	Windstar International Tax Navigator Interface for Banner
Y	Reserved for client applications
Z	Reserved for client applications

Object type codes

Updated: April 05, 2021

The third component of a Banner object name identifies the type of page, report, job, or table.

A few examples of object type codes are as follows:

Object type code	Description
A	Application page
B	Base table
C	Called page
I	Inquiry page
M	Maintenance
P	Process/Report page
Q	Query page
R	Repeating table, Rules page, or Report
